

Please do not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

I work night shift and this is the first time in years that I have been able to get a full 8 hours of sleep without a telemarketer phone call. How would you feel if you got annoying phone calls all night long, every night, even weekends?

I used to receive dozens of calls per week, now I get less than 1 a month.

Indiana's law is one of a very few new laws that I can seriously say has improved my quality of life.
